

Attributes:

All attributes in DB Schema are present in the ERD, with correct datatypes and key labels (PK/FK).

Relationship Mapping:

accounts

- **account_roles** -> **account** *assigned* 0 or many (Optional)
- **audit_logs** -> **account** *acts_in* 0 or many (Optional)
- **authentication_credentials** -> **account** *has_credentials* 1 and only 1 (Mandatory)
- **dashboards** -> **account** *has* 0 or many (Optional)
- **form_submissions** -> **account** *submits* 0 or many (Optional)
- **health_entries** -> **account** *owns* 0 or many (Optional)
- **health_goals** -> **account** *sets* 0 or many (Optional)
- **reports** -> **account** *researcher* 0 or many (Optional)
- **two_factor_methods** -> **account** *has_methods* 0 or many (Optional)

account_roles

- **accounts** -> **account_roles** *assigned* 1 and only 1 (Mandatory)
- **roles** -> **account_roles** *receives* 0 or many (Mandatory)

aggregated_data

- **reports** -> **aggregated_data** *contains* 0 or many (Mandatory)

audit_logs

- **accounts** -> **audit_logs** *acts_in* 1 and only 1 (Mandatory)

authentication_credentials

- **accounts** -> **authentication_credentials** *has_credentials* 1 and only 1 (Mandatory)

dashboards

- **accounts** -> **dashboards** *has* 1 and only 1 (Mandatory)

form_fields

- **form_templates** -> **form_fields** *defines* 1 and only 1 (Mandatory)

form_submissions

- **accounts** -> **form_submissions** *submits* 1 and only 1 (Mandatory)
- **form_templates** -> **form_submissions** *used_by* 1 and only 1 (Mandatory)
- **health_entries** -> **form_submissions** *produces* 0 or many (Optional)

form_templates

- **form_fields** -> **form_templates** *defines* 0 or many (Optional)
- **form_submissions** -> **form_template** *used_by* 0 or many (Optional)

health_entries

- **accounts** -> **health_entries** *owns* 1 and only 1 (Mandatory)
- **form_submissions** -> **health_entries** *produce* 1 and only 1 (Mandatory)

health_goals

- **accounts** -> **health_goals** *sets* 1 and only 1 (Mandatory)

permissions

- **role_permissions** -> **permissions** *included_in* 0 or many (Optional)

reports

- **accounts** -> **reports** *researcher* 1 and only 1 (Mandatory)
- **aggregated_data** -> **reports** *contains* 0 or many (Optional)

roles

- **account_roles** -> **roles** *receives* 0 or many (Optional)
- **role_permissions** -> **roles** *grants* 0 or many (Optional)

role_permissions

- **permissions** -> **role_permissions** *included_in* 1 and only 1 (Mandatory)
- **roles** -> **role_permissions** *grants* 1 and only 1 (Mandatory)

two_factor_methods

- **accounts** -> **two_factor_methods** *has_methods* 1 and only 1 (Mandatory)
